

Compare costs with the Price a Drug tool

Drug price info to help you manage your health care dollars

If your health benefits include a FutureScripts® prescription drug plan, the Price a Drug tool lets you check out the price for a medication at pharmacies in your area — before you go. You can also compare the price through your mail order program.^{1,2}

1

Getting started is easy

- Visit myibxtpabenefits.com and sign in.
- If this is your first visit, choose Register at the top of the page or click the Register box and create your user account.

2

Open your pharmacy tools

Choose Pharmacy at the top of the screen. Then click FIND/PRICE A DRUG.

3

Identify a drug to get prices

Type in or choose information about the drug you want to look for. The Price a Drug tool asks for the drug name, dosage, quantity, and the location where you will buy it.

4

Get price information and compare

The Price a Drug tool shows prices at pharmacies near you to help you compare and save. If your plan includes a mail order option, the mail order price may be based on a different quantity than what appears for pharmacies.

Press  next to a pharmacy for more information.

¹Our pharmacy pricing tool is provided as a convenience to help you compare and find the best value. Prescription drug prices are agreed to by the pharmacies and may change at any time. Due to the variable nature of medication prices we cannot completely guarantee the accuracy of our pricing tool; we recommend that you check with your pharmacy to obtain an exact price. Since a pharmacy may not carry a specific prescription or may run out of it, please contact the pharmacy to confirm availability.

²The mail order option may not apply to all plans or may not be available for all medications.
